

Any Municipality Can Use Dogs Online!

Interware Development's web-based application for capturing dog renewal information for local processing, Dogs Online, was launched in 2007 with the City of Rochester, New Hampshire. Dogs online is offered as an add on to ClerkWorks at no additional charge or can be integrated with existing licensing systems, making this application available to virtually any municipality across the state. Our applications aim to maximize the efficiency of the Municipal Office by providing "do-it-yourself" functionality while maintaining a low cost to not only the municipality but the citizens as well.

Automatic Calculation of Licensing fees

- Dogs Online automatically calculates the appropriate license fees specific to each municipality.
- Senior Citizens are charged a senior rate on their first dog and full price on the second and subsequent dogs.
- Late fees are determined based on a date set by your municipality and applied as the months progress.
- Civil Forfeiture fees can be included based on a specific date with custom charges that adhere to local regulation.
- Municipal-specific household fees can be added to cover the costs associated with Civil Forfeiture distribution.

Citizen Features

- Citizens can renew their Dog License(s) from any internet access point, at anytime.
- All dogs owned by the citizen are displayed on the confirmation screen with only one license entered by the citizen.
- Any dog with an outdated rabies certificate will display with a zero amount due and a message instructing the citizen to provide the municipal office with proper documentation before their license can be renewed.
- Citizen has the option to remove a dog(s) from the confirmation screen or shopping basket. Future enhancements will include a prompt for citizens to provide a reason for removing the dog(s).
- Multiple license renewals can be requested online in one shopping basket with the ability to add additional transactions of any type.
- Diverse payment options are available, including credit cards, ACH and e-checks.
- A confirmation e-mail is automatically sent to the citizen, verifying renewal information was received.

Enter an existing license number.

Click on the "Sample Bill" to see how you would find your current license number. This is the number here to bring up all your dogs. If you look at your dogs license TAG number just prefix it with a 08- (zero then the number 8 followed by a dash). For example: 08-123

License No	Exp Year	Email Address (required)
<input type="text" value="10-361"/>	<input type="text" value="2011"/>	<input type="text" value="sales@interwaredev.com"/>

Select Which Licenses to Renew or Use the New License Link to Add Another
