

E-REG

MOTOR VEHICLE REGISTRATION

BENEFITS

- Reduce phone calls by offering estimates
- Save money on Blue Book Data
- Automatic calculation of local exercise tax and applicable local agent fees
- Automatic calculation of state registration fees for all municipal agent authorized plate types
- Red flag messages to prevent renewals
- Reduce paper waste by utilizing e-mail renewal notices

FEATURES

- Add on to ClerkWorks or integrated with existing software
- Establish custom verbiage, payment options offered & display town/city logo
- State messages are incorporated into E-Reg
- Revocations are loaded monthly from state files
- Municipal office can access E-Reg requests at any time to process at their convenience

ESTIMATES

An included feature for all E-Reg customers!

Citizens can request estimates on new vehicles and renewals 24 hours a day, 7 days a week

Seamless integration with Blue Book data, allows for accurate population of list price and weight, accessible by lookup via VIN or year/make/model

RENEWAL NOTICES

E-Reg comes with a full renewal notice system. Options include print, e-mail or combination of both.

E-mail addresses are automatically captured and saved when a customer processes a transaction online, enabling ease of e-mail renewal notice distribution and a direct way for clerks to communicate with customers.

Single e-mail notices can be sent outside of a bulk sending, by PIN number or e-mail address.
