

## CONNECT WIRELESSLY PROCESS INSTANTLY

EPay2Go is a completely customizable mobile application that facilitates EMV credit card transactions anywhere.

### SMART TERMINALS

#### PAX A920

A compact and secure smart terminal with built in receipt printer, rechargeable battery, and EMV (chip and PIN) technology. This device runs on the Android operating system and has a large HD touchscreen display. The device connects through WiFi and cellular services making it a truly mobile solution for credit card processing.

#### PAX A80

The most cost-effective and reliable smart terminal available. Features include a built in receipt printer, Android operating system, touchscreen display, keypad for PIN entry, and includes EMV (chip and PIN) technology. This device must be plugged in through a wall outlet for power and connects to the internet through WiFi, cellular services, or an ethernet cable. This device is a great option to enable a kiosk system in any department.

Process credit card payments anytime, from anywhere. The app lets you process digital payments quickly and easily no matter where you are.

Provide the best service with innovative tools. Bring payments to the field for any department or event including: rabies clinics, recreation events, transfer stations, police stations, clerk offices, tax kiosks, and more. A smart terminal and merchant ID is all you need to utilize this simple and robust application!

Customize the solution to fit your needs and integrate with the rest of your department. EPay2Go runs off the EB2Gov systems leveraging the Dashboard for quick and easy customization, and myEB2Gov allowing customers to view transaction history anytime!

# PAX SMART TERMINAL

## Scanning Validation

Our online EB2Gov platform allows citizens to pay for permits, passes, items for drop off, and more. When these transactions are placed online, users are presented immediately with their permit, pass, or document with a code that is brought to the facility and scanned to validate the items and dates. Once scanned attendants will know immediately if it's a valid document, already used, expired, etc.

### BENEFITS:

- ☒ Reduce costs and save time by eliminating the need to mail these items. Printing is instantaneous and can be reprinted from citizen's email or myEB2Gov account anytime.
- ☒ Deter and eliminate fraud by validating usage and information in seconds.
- ☒ Create custom payment services for any department or service.

### VALIDATES:

- **Building Permits**
- **Transfer Station Permits**
- **Beach Passes**
- **Pool Passes**
- **Permits & passes of any kind**
