FundWorks Accounting

UTILITY BILLING

Making government more efficient for all of us...

⚙ FEATURES

- View active invoices from Utility Billing Module by Property or Account
- Scan utility payment stubs for quick receivables
- Download lock box file to post online payments
- Calculates and prints commitment list in detailed or summarized formats
- Bills may be custom designed to accommodate most types of bill formats
- Standard report formats are provided, however can be edited and new reports can be created using Crystal Reports (a Seagate product)
- All or individual accounts can be synchronized to EB2Gov for citizen online, self-help lookup

👍 BENEFITS

- Corrections may be made and commitment list may be reprinted as often as necessary before utility bills are printed
- Users may set their workstations to their preferences through Set View (choose which data they view on screen, set colors, rename column headings and much more)
- Utility bills are processed to Accounts Receivable System for collection
- Any report may be printed to a printer (selected at print time), previewed on screen, exported to a file, or emailed
- Standard, familiar design to all programs makes learning easy
