SearchAPet
ONLINE DOG LOOKUP

A unique online application, specifically for Police Departments, to search their community's dog licensing and owner information.

FEATURES

- Replaces the need to manually export or print data for police departments
- Through a secure login, users will have read only access to the entire local dog database
- Create as many users as necessary for your organization
- The search application is hosted on our secure web portal, empowering Police Department personnel with immediate access to up-to-date licensing data

HOW IT WORKS

1. Select search criteria, ability to enter full or partial search term.
2. Use displayed options to search by gender and/or whether the dog has been altered.
3. Once you've located a possible match, click to display the owner and dog details, including rabies expiration date, owner contact information & more
4. Export results with multiple export options

BENEFITS

- Empower police departments and animal control officers with immediate access to up-to-date licensing data maintained by the local Clerk's Office
- Search the entire local dog licensing database by any criteria
- Access the database 24/7 with a secure login
- Eliminate duplicate record & data entry
- Data updated in real time eliminating stagnant data
- Portable; data can be searched anywhere there's an internet connection
- Filter on search results for a concise list of possible matches
- Save time and money

FUTURE ENHANCEMENTS

Google map integration to pin lookup results based on owners address
